

MUSHNOMICS

Unlocking data-driven innovation for
improving productivity and data sharing
in mushroom value chain

MUSHNOMICS

Aachen,
28-30 September 2022

MUSHNOMICS Scope

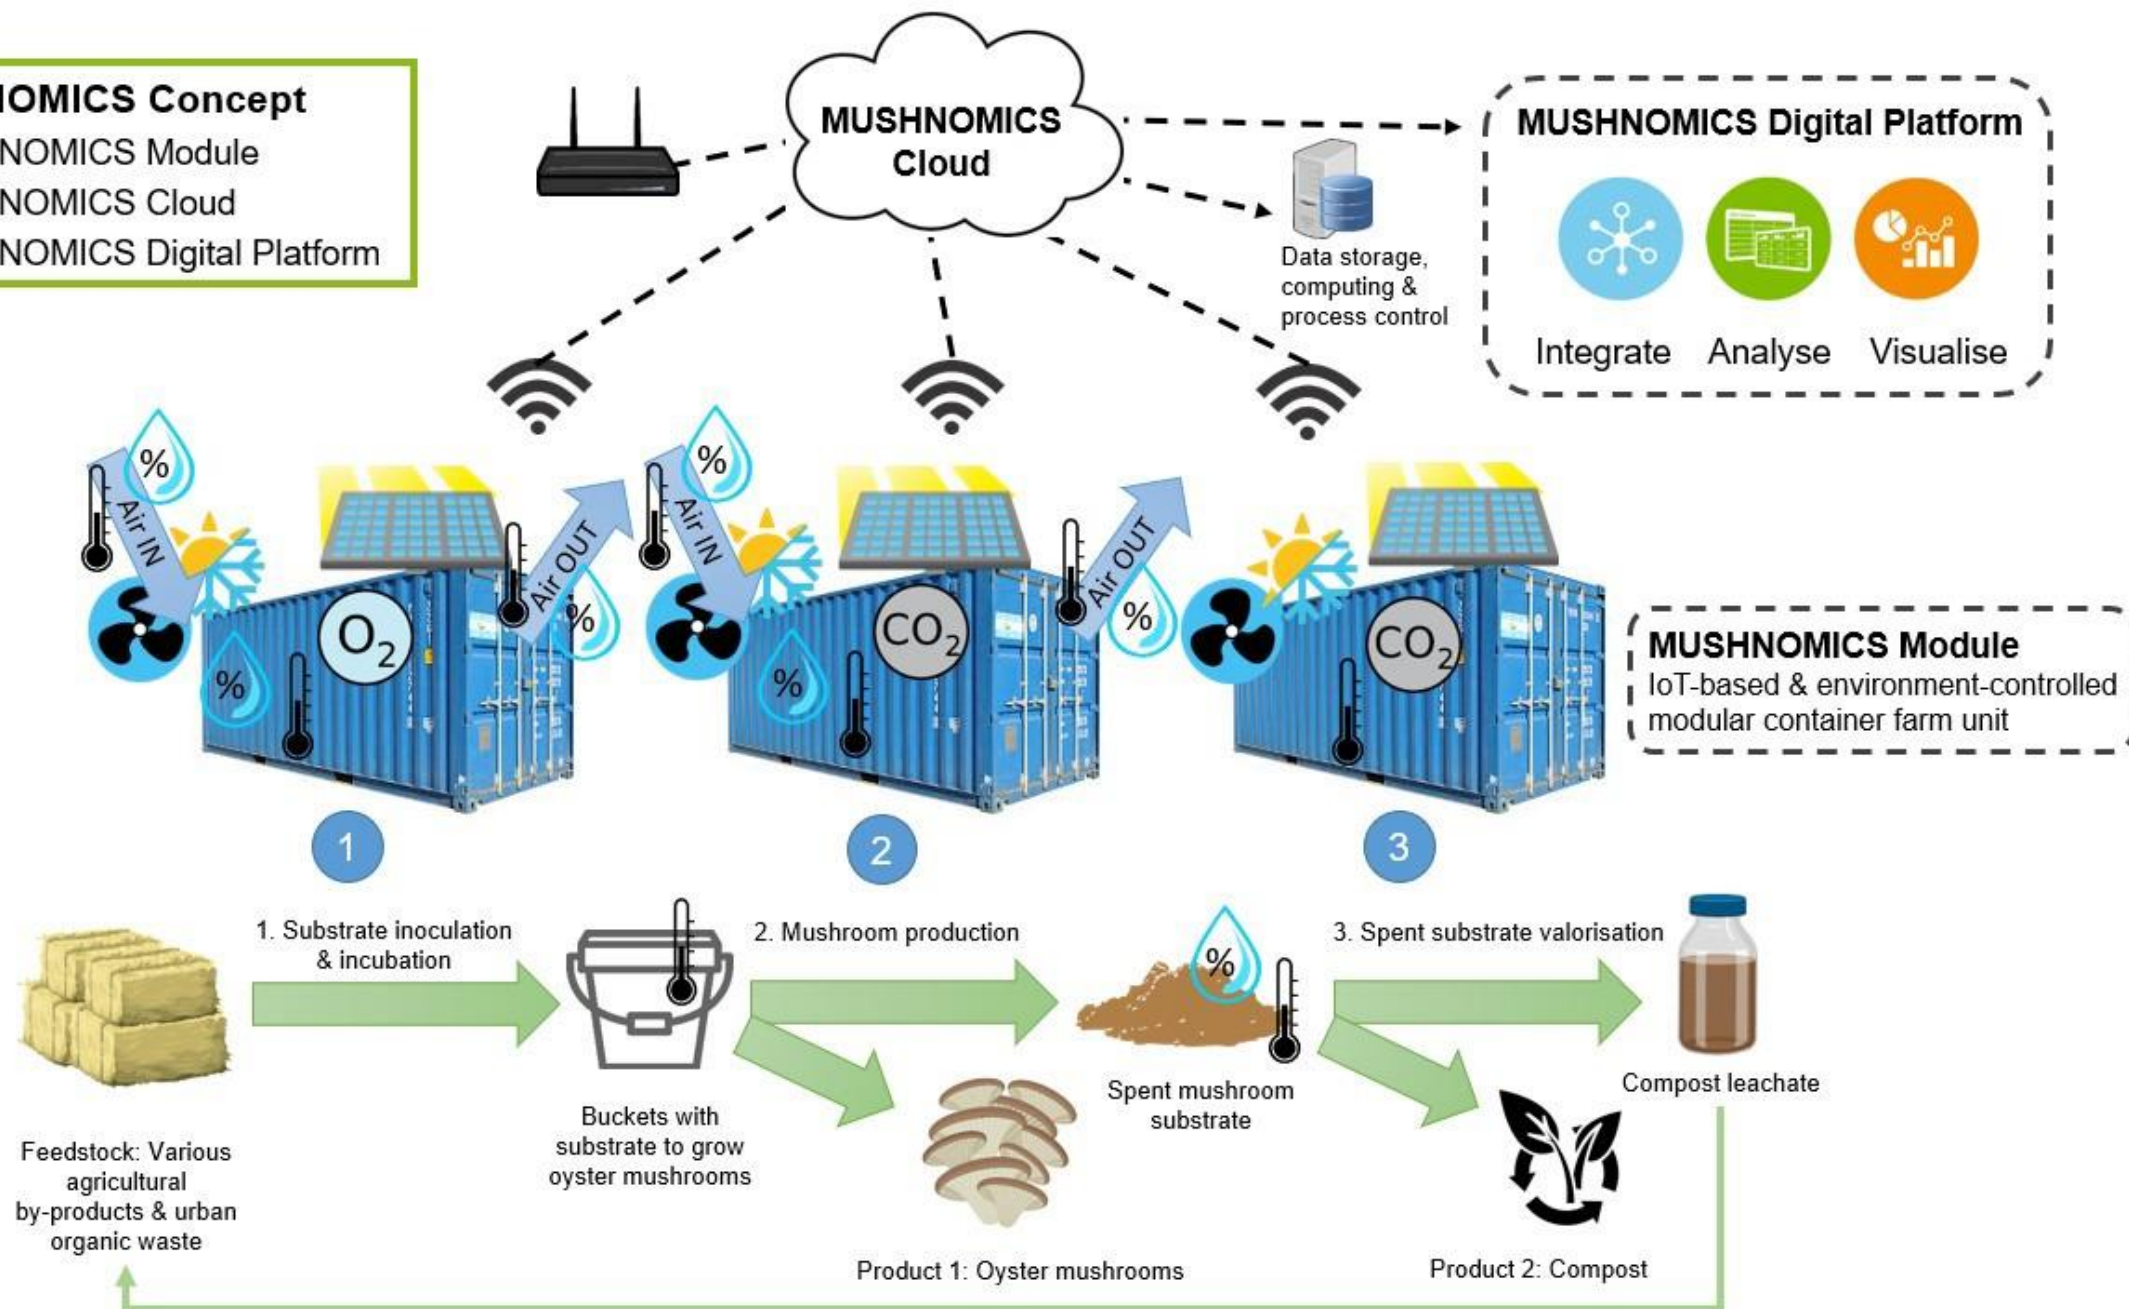

A smart container embedding AI algorithms for optimizing the growth of mushrooms, especially oyster

This means that we want to intervene in the **whole value chain**: substrate production, mushroom growth and substrate recycling and reintegration.

ACHIEVEMENTS

MUSHNOMICS Concept

- MUSHNOMICS Module
- MUSHNOMICS Cloud
- MUSHNOMICS Digital Platform

FUTURE

MUSHROOMS OF THE FUTURE

WHAT'S GOING ON IN THE MUSHROOM INDUSTRY?

Unlocking data-driven innovation for
improving productivity and data sharing in
mushroom value chain
